

Helicopter Master Game Template

About this game

Discover our amazing helicopter shooter game full of action! Fly in the sky with your favourite helicopter fighting for your survival against enemy air planes!

You are a pilot of the Army patrolling from the sky. Your commander reported unidentified air planes.

You just saw some air crafts approaching to your air plane but you need visual confirmation... Return immediately to your base and report it to your commander! Get out of here now! Do not start the battle alone, there are too many of them!

Feature :

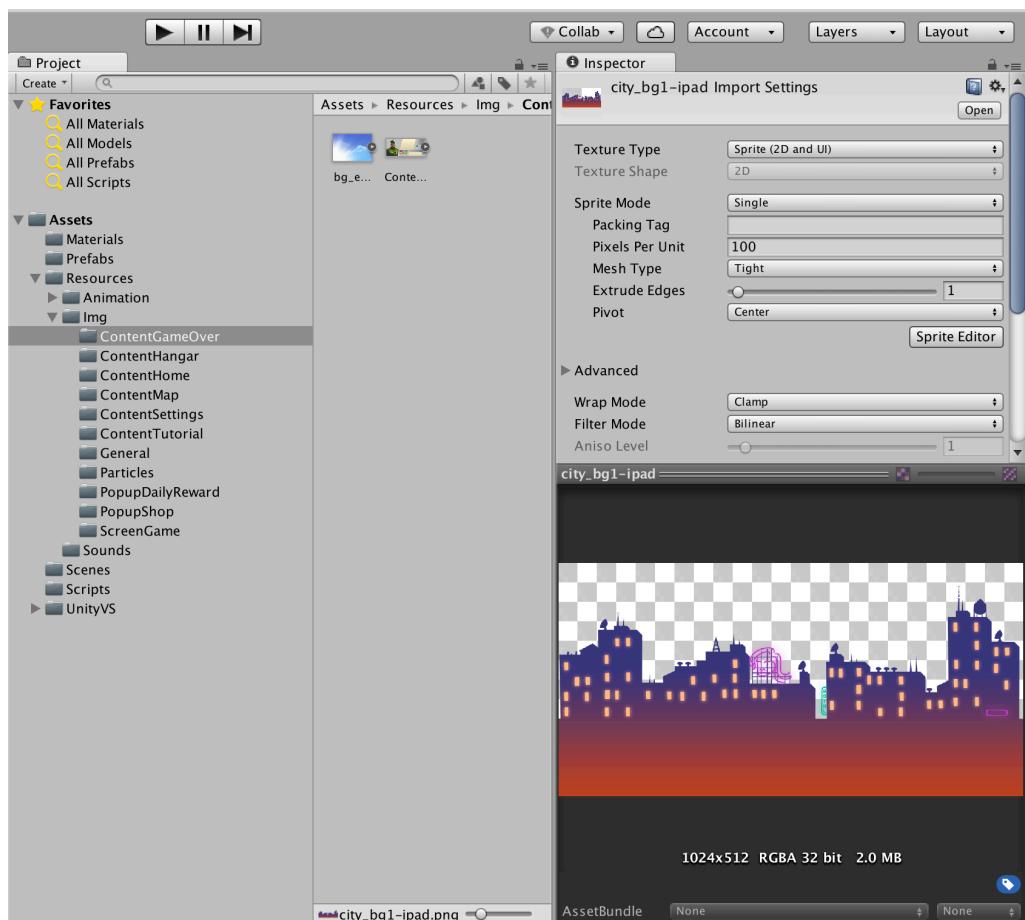

- Straightforward, but challenging gameplay
- Dozens of weapons and aircraft upgrades
- Intense and exciting Boss fights
- Game changing power-ups
- Stunning levels and awesome artwork
- Admob interstitial
- Support for Android and IOS

How to reskin this game?

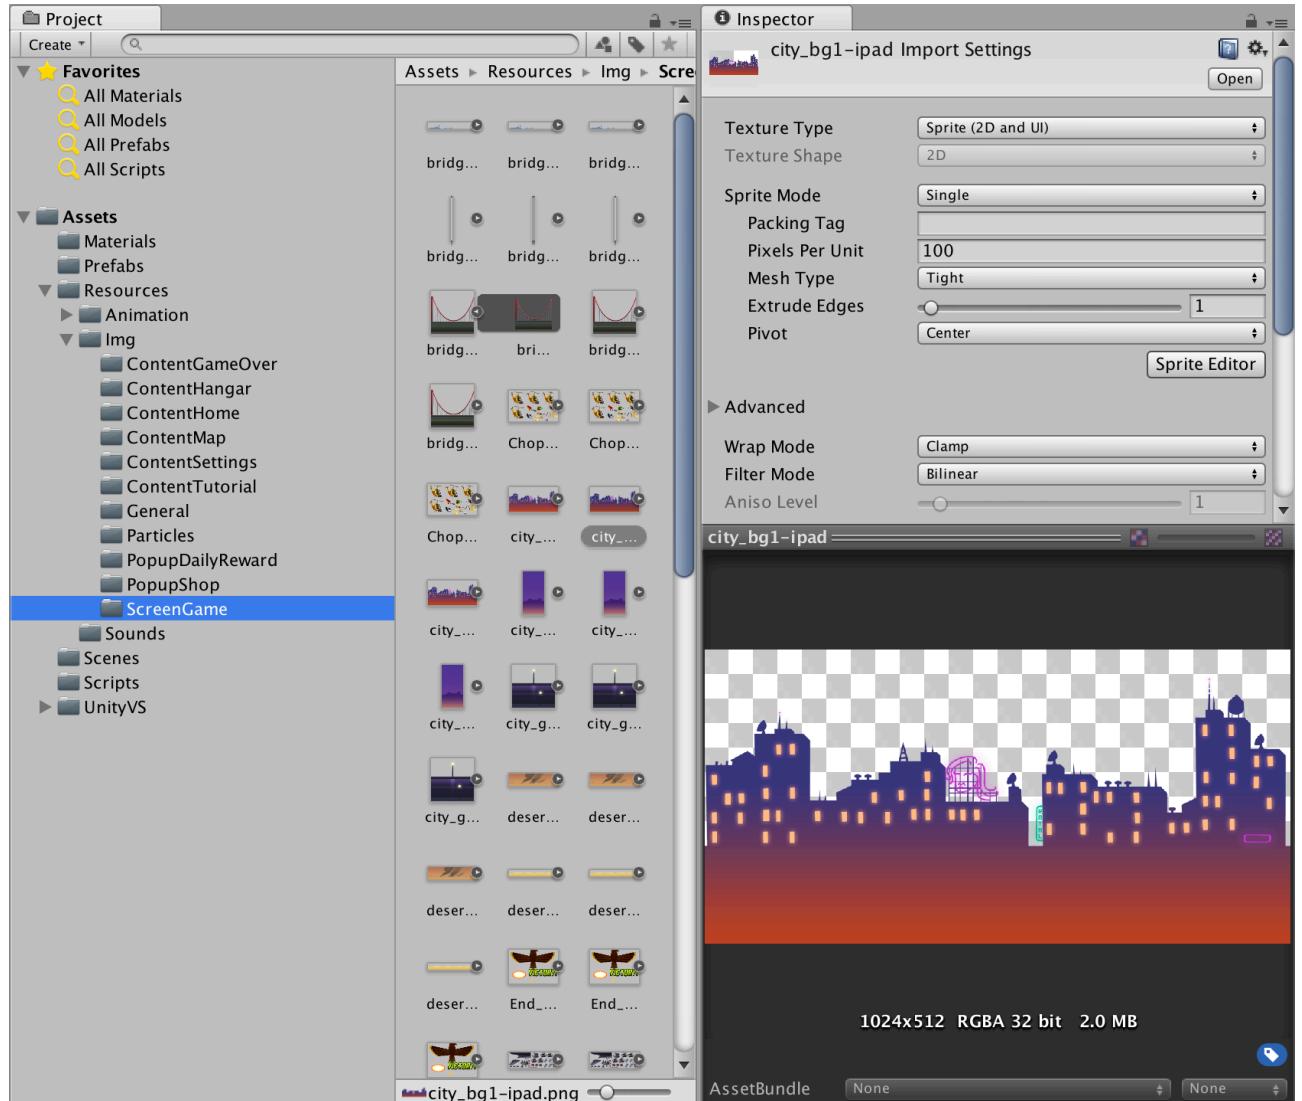

Open Assets/Resources/Img folder to find atlas object, they are .png file.
You should open them by photoshop or graphic editor software to replace graphics

for example:

to reskin UI element, find atlas in
ContentGameOver,ContentHangar,ContentHome...

To reskin game play element, find atlas in ScreenGame

How to change Admob ID?

Open game scene and find AdsControl, look inspector and replace admob id
